INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Habitat for Humanity of Denton County, Inc.

We have audited the accompanying financial statements of Habitat for Humanity of Denton County, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Habitat for Humanity of Denton County, Inc. as of June 30, 2015, and the change in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities, History and Organization:

Habitat for Humanity of Denton County, Inc. (“Habitat”), is a nonprofit corporation based in Denton, Texas incorporated on August 1, 1994. Habitat is an affiliate of Habitat for Humanity International, Inc. (“International”) a non-denominational Christian non-profit organization whose purpose is to create decent, affordable housing for low-income families, and to make decent shelter a matter of conscience with people everywhere. Although International assists with information resources, training, publications, prayer support, and in other ways, Habitat is primarily and directly responsible for its own operations.

Habitat pursues its mission by building and rehabilitating homes using donated supplies, volunteer labor, contributed funds, and properties. The homes are then sold to pre-selected, low-income families at the average estimated cost paid to construct the home. In addition to satisfying eligibility criteria, potential homeowners are required to invest between 350 to 400 hundred hours of their time, “sweat equity”, to volunteer for Habitat and help build the homes. Habitat provides financing for the homes at a rate of zero percent (0%) interest, and at no profit to the organization. Monthly principal payments from families who buy homes from Habitat are added to the pool of resources used to build more homes for more families in need.

Habitat’s ReStore is a store in which building materials, home appliances and supplies are sold to the public. A significant portion of the merchandise is donated to Habitat. A lesser amount of merchandise that is sold is purchased through traditional methods. All ReStore proceeds benefit Habitat.

On January 31, 2004, Habitat entered into an agreement with Ruth’s Room Inc., a resale thrift store, to donate excess floor space and parking located at 1721 Carroll Blvd. to Ruth’s Room Inc. for use as a thrift store. In exchange Ruth’s Room, Inc. agreed to donate the net proceeds from its thrift store operations on a monthly basis to Habitat.

Habitat works in several areas. Briefly described below is the scope of responsibilities:

Housing Development:

Land Acquisition – Cultivating relationships with cities in the County of Denton, Texas to locate and acquire land for affordable home construction.

Construction – On-site building of homes; coordination, training and supervision of all construction site volunteers.

International – Providing for the construction of homes outside the United States. An amount of undesignated funds is donated annually to International for this purpose, as determined by Habitat’s Board of Directors.

NOTE 1 – (CONTINUED)

Families and Volunteers:

Homeowner Relations – Qualification and selection of families, training and managing long-term relationships with families.

Volunteer Services – Recruiting, training and scheduling volunteers for all aspects of work; at the construction site, in the office, and on committees.

Significant Accounting Policies:

In fulfilling its responsibility for the preparation of the Habitat’s financial statements and disclosures, management selects accounting principles generally accepted in the United States of America and adopts methods for their application. The application of accounting principles requires the estimating, matching and timing of revenue and expense in the determination of support or expenditures. It is also necessary for management to determine, measure and allocate resources and obligations within the financial process according to those principles. Below is a summary of certain significant accounting policies selected by management.

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Basis of Presentation:

The statement of activities is a statement of the various financial activities and changes in net assets during the current reporting period. It does not purport to represent the results of operations nor of net income or loss for the period since the primary objective of the Habitat is not to achieve a “profit”, but to support its mission stated above.

Net Asset Accounting:

As a nonprofit organization, Habitat for Humanity of Denton County, Inc. maintains its records on a fund accounting basis in order to ensure observance of the limitations and restrictions placed on the use of its resources. This is the procedure by which net assets for various purposes are classified for accounting and reporting purposes into self-balancing accounts. Those funds are further classified into net asset groupings in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 605-10 and 958-205, as follows:

Unrestricted net assets – Net assets that are not restricted by donor-imposed stipulations. Unrestricted net assets may include certain funds that the Board of Directors has determined are to be designated for a particular purpose.

Habitat for Humanity of Denton County, Inc.
Notes to the Financial Statements
June 30, 2015 and 2014

NOTE 1 – (CONTINUED)

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by the actions of the Organization and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of these assets permit the Organization to use all or part of the income earned on any related investments for general or specific purposes.

Habitat reports gifts of property and equipment as unrestricted support unless explicit donor restrictions exist that specify how the assets are to be used. Gifts of long-lived assets with explicit restrictions and gifts of cash that must be used to acquire long-lived assets are reported as temporarily restricted support. Habitat reports expirations of donor restrictions when the donated assets are placed in service, unless donor restrictions indicate otherwise. Income from permanently restricted net assets is recorded as unrestricted unless otherwise restricted by the donor.

Statement of Cash Flows:

The statement of cash flows is presented using the “indirect method”. For purposes of this statement, Habitat considers as cash, all cash on hand, cash in checking accounts, money market funds and other similar instruments with maturities of three months or less.

Cash and Cash Equivalents:

Habitat’s financial instruments, none of which is held for trading purposes, consist of cash and cash equivalents. Habitat considers all highly liquid investments that are redeemable in 90 days or less to be cash and cash equivalents.

Property and Equipment:

Property and equipment which are purchased are recorded at historical cost. Donated property and equipment are recorded at their fair value at the date of contribution. Depreciation is recorded using a straight-line approach over 5 to 39 years. Habitat’s capitalization policy is to expense property and equipment purchases less than \$500. Repairs and maintenance are charged to expense as incurred.

Habitat for Humanity of Denton County, Inc.

NOTE 1 – (CONTINUED)

ReStore Inventory:

Inventory is stated at the lower of cost or market, computed on the first-in, first out method. Carry value for purchased items is the actual cost to acquire the item. Cost of the donated items is the fair market value. The fair market value is determined by the selling price for that item. Retail sales are recorded at the point of sale.

Land Held for Development:

Land held for development represents the carrying value of lots owned by Habitat which may be the site of future home construction. The carrying value of land held for development is cost, or if donated, the fair value at the time of the donation. Upon the sale of the home to the homeowner, the land held for development is recognized as cost of homes sold.

Revenue Recognition and Sales:

Homes are sold to qualified buyers at approximately the cost to build the home. Non-interest bearing mortgages are accepted as payment for the homes sold. For the years ended June 30, 2015 and 2014, one and three homes were sold, respectively, by Habitat.

Mortgages Receivable:

Mortgages Receivable consists of non-interest bearing mortgages, which are secured by real estate and payable in monthly installments over the life of the mortgage. Every effort is made to assist homeowners who have become delinquent in their mortgage payments. However, foreclosure proceedings may be initiated and/or Habitat may accept back the deed in lieu of foreclosure where homeowner mortgage payments are deemed seriously delinquent. Properties acquired through foreclosure or accepted a deed in lieu of foreclosure may be sold directly on the open market, or refurbished in partnership with and sold to other families in need of decent, affordable housing.

Mortgage notes receivable entered into at rates substantially below market rates are discounted to net present value. The discounts are charged directly to operations at the inception of the mortgage and amortized over the life of the contract. Interest accrued at stated rates and discount amortization is reported as interest income in the period accrued or amortized.

Habitat has not recorded an allowance for uncollectible mortgages because it can reclaim houses through foreclosure. Though some of these mortgages may be foreclosed, Habitat believes that losses on foreclosure, if any, are immaterial in relation to these financial statements.

NOTE 1 – (CONTINUED)

Escrow Reserves:

Habitat services the mortgages on homes the Organization sells. Included in temporary restricted cash are amounts received by homeowners for insurance and property taxes (escrow funds). These amounts will be used to pay amounts as they become due. A corresponding liability is included in escrow accounts payable in the accompanying statement of financial position. Escrow reserves at June 30, 2015 and 2014 were \$37,776 and \$54,377, respectively.

Contributions:

Contributions, including unconditional promises to give, are recorded at their fair value at the date of receipt. All contributions are available for unrestricted use unless specifically restricted by the donor. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved.

Donated Materials and Services:

Donated services are recognized as contributions in accordance with accounting standards at their estimated fair value if the services (a) create or enhance the Organization's non-financial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased. Donated materials consist primarily of building materials and supplies for construction and sale in the ReStore. These types of donated materials and services have been recorded in the financial statements. No amounts have been reflected in the financial statements for certain donated volunteer services because they do not meet the criteria for recognition under ASC 605-10, *Accounting for Contributions Received and Contributions Made*. However, a substantial number of volunteers have donated a significant amount of time in Habitat's program services.

Functional Allocation of Expenses:

The costs of providing Habitat's various programs and supporting services have been summarized on a functional basis in the statement of activities. Accordingly, certain expenses have been allocated among the various programs and supporting services benefited.

NOTE 1 – (CONTINUED)

Income Taxes:

Habitat for Humanity of Denton County, Inc. is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code, under a group exemption letter granted to Habitat for Humanity International, Inc. by the Internal Revenue Service, and therefore has made no provision for federal income taxes in the accompanying financial statements. However, Habitat is subject to Federal excise tax and unrelated business income taxes. In addition, Habitat has been determined by the Internal Revenue Service not to be a “private foundation” within the meaning of Section 509(a) of the Internal Revenue Code. There was no unrelated business income or known Federal excise taxes for the years ended June 30, 2015 and 2014.

Advertising Costs:

Advertising costs are expensed as incurred. Habitat incurred \$2,355 and \$7,503 in advertising costs for the years ended June 30, 2015 and 2014, respectively.

Fair Value:

Certain assets are reported at estimated “fair value” in accordance with ASC 820-10, *Fair Value Measurements and Disclosures*. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

Compensated Absences:

Employees of Habitat receive paid vacation and personal days off, depending on length of service and other factors. It is impractical to estimate the amount of compensation for future absences and accordingly, no liability has been recorded in the accompanying financial statements. Habitat’s policy is to recognize the cost of compensated absences when actually paid to employees.

Use of Estimates and General Assumptions:

The process of preparing financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates and assumptions affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 – MORTGAGE NOTES RECEIVABLE

A home is considered sold when a formal closing transaction has been finalized. Homes are sold for a price that approximates the cost to construct.

Habitat holds 81 and 84 mortgage notes receivable with maturity dates ranging from 15 to 30 years as of June 30, 2015 and 2014. The notes are non-interest bearing mortgages, payable in equal monthly installments, and are secured by deeds of trust on the properties. The payments collected on these notes are to help fund future home construction. The notes have been discounted at various rates ranging from 7.50% to 9.00% using the effective interest method over the lives of the mortgages. Mortgages are reported net of amortized cost.

NOTE 15 – FAIR VALUE OF FINANCIAL INSTRUMENTS

Certain assets are reported at estimated “fair value” in accordance with ASC 820-10, *Fair Value Measurements and Disclosures*. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

Financial instrument valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect market assumptions. The standard classifies these inputs into the following hierarchy:

Level 1 Inputs – Quoted prices for identical instruments in active markets.

Level 2 Inputs – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Inputs – Instruments with primarily unobservable value drivers.

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of these assets pursuant to the valuation hierarchy, is set forth below:

NOTE 15 – FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Non-interest bearing mortgage receivable and unamortized discount are classified within Level 3 of the valuation hierarchy. Habitat obtains these values by taking into account the following assumptions: (1) unamortized discount rate is the interest rate provided each year by International (7.51% and 7.58% in 2015 and 2014, respectively); (2) reliance on International's discount rate to be reflective of the overall market; (3) the discount is amortized using the effective interest method over the life of the mortgage; (4) mortgages receivable are valued based on the gross mortgage amount less discount and down payment received.
